

Improvement of Material Segregation Using Cartoon Partition at Dispatch Audit Table

Idea Initiated by – Dinesh Jangam & Maruf C.
April- 26

CONCEPT

Before CI:

- There was no proper partition at the dispatch audit table, leading to lack of segregation, possible material mix-up, and reduced efficiency during audit activities.

After CI:

- A cartoon sheet has been placed as a partition at the dispatch audit table, ensuring better segregation of documents, improved organization, and smoother audit operations.

Replacement of Gunny Bags with Shrink Wrap for Small Carton Dispatch

Idea Initiated by – Dinesh Jangam.& Sagar Bangar
April- 26

CONCEPT

Before CI:

- Previously, gunny bags were used for packing small-size cartons during dispatch, leading to higher consumption of packaging material and additional handling effort.

After CI:

- Now, shrink wrap is used for packing small-size cartons, eliminating the need for gunny bags and streamlining the packing process..

TIME IMPLEMENTATION

01 days

COMPLEXITY

Low

High

GAINS

- Reduction in gunny bag consumption.
- Improved packing efficiency and faster dispatch process.
- Cleaner and more secure packaging with shrink wrap.
- Reduced storage and handling of gunny bags.
