

A large industrial warehouse with a high ceiling and concrete floor. In the foreground, a red and black AGV (Automated Guided Vehicle) is moving towards the camera. To the right, there are several pallets stacked with cardboard boxes. In the background, another AGV is visible, and the warehouse structure with metal beams and pipes is clearly seen.

| Processed within 3 hrs | 441    |
| Delayed                | 2      |
| Performance %          | 100%   |
| SLA Target <3 hrs      | 97%    |

# Inbound – Tool – SLA - GRN < 3 Hours – 97%

| Inbound                | May-26 |
|------------------------|--------|
| Item Received          | 52     |
| Processed within 3 hrs | 30     |
| Delayed                | 22     |
| Performance %          | 58%    |
| SLA Target <3 hrs      | 97%    |

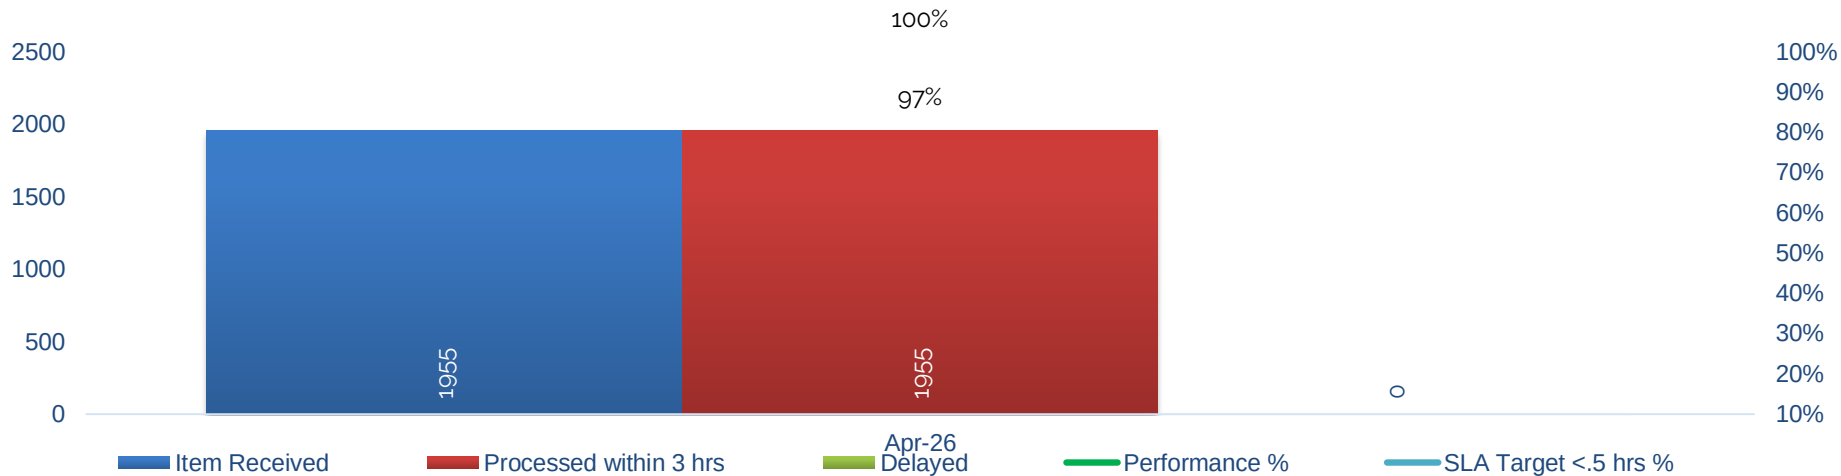

# Causal Inward - Tool

| Inward                                                | Tool - May- 26 |
|-------------------------------------------------------|----------------|
| Inbound Processing cycle time%                        | Target = 97%   |
| Achieved Target=97% <b>F</b>                          | 58%            |
| Clarification Pending<br>( Damage, Rusting, Dusting ) |                |
| SAP GRN Pending                                       | 42%            |
|                                                       |                |
|                                                       | 100%           |

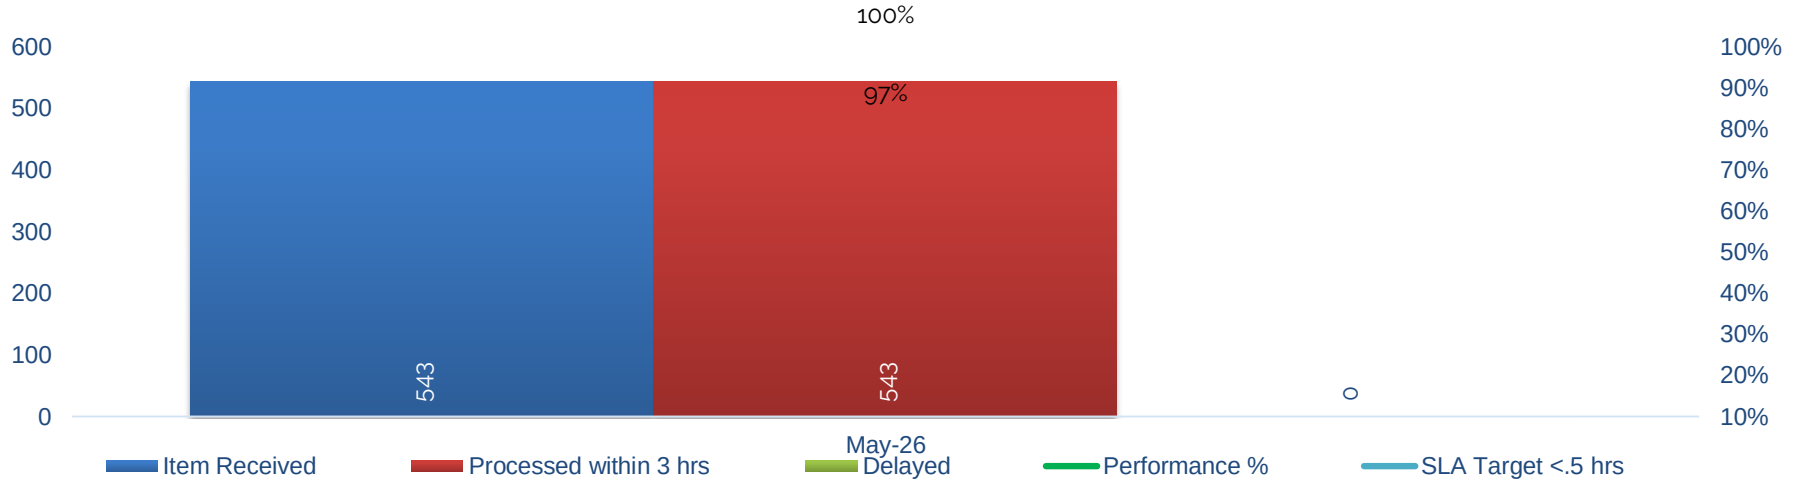

Tools performance goes down every month because the tools inward process is different. First, GRN is done in SAP and the customer gives us GRN confirmation, then we perform GRN in WMS.

# Outbound - 001 SLA < 0.5 Hours- 97%
