

**TITLE : DEPARTMENTAL PROCEDURE****PROCESS FOR CARRYING OUT PIC FOR SERVICE SPARES****PURPOSE:**

To establish and maintain process flow for routine PIC (perpetual inventory count) for service spares.

SCOPE:

This process is applicable to all service spares.

PERFORMANCE CRITERIA

Inventory Accuracy

PROCEDURE

1. Perpetual physical verification of inventory is carried out by the warehouse team on daily basis. Last two days of the month are exempted for the PIC

- The 3 PL & Commercial team is required to carry out inventory counting of those SKUs which have transacted in the previous day through LN Session "PIC report Item wise" (txinr1410m01c)
- The counting should be done using the 'Stock counting App' presently in vogue.
- Convert inventory statement to Online Excel Format and include Quantity for specific Warehouses.
- Activate the Stock Counting App through MS Flow (only for Office-365 users) and commence Live-Stock Counting
- WHS & Location Supervisor to conduct PIC for their designated location.

2. 3PL to carry out PIC along with Warehouse Supervisors daily:

- Ensure process compliance
- Check unresolved discrepancies.
- Take appropriate actions on case-to-case basis.

3. All difference is to be investigated and correctives to be taken within 7 days from the date of PIC.

4. All short-found material not traced within 3 days to be transferred to Z2F16Q warehouse.

5. 3 PL to locate material within 30 days & if found get same certified through commercial & QA team and transfer the same to regular warehouse Z2F18S.

 MATERIAL HANDLING	Doc: - MH IMS SDS 06 P6 Rev: - 01, Date: 02.04.2021
<u>TITLE : DEPARTMENTAL PROCEDURE</u>	

6. If material not found in 30 days from transferring to Z2F16Q, recovery to be initiated through sales order from 3 PL.
