Sustainability measures at Bhiwandi Warehouse

- All lights have been replaced with **LEDs** in office, washroom and multitier shelving and other warehouse premises.
- **Sensor based** technology installed in warehouse from Jul'23, which has reduced electricity consumption than **80%**
- Out of total electricity consumption at DC Bhiwandi warehouse, approximately **60%** is generated by solar panels.
- Deployed **1 Electric vehicle of 1 Ton, 2 EV of 2.2 tons & retrofitted 2 Diesel trucks to electric vehicles of 8 tons each for local pick up & distribution.**
- We have majorly eliminated use of plastic from Nov'23 in tune of 80 Tons/year & by adopting **Compostable Grade Bags from June 25**, we have eliminated 99% usage of plastic from warehouse.
