

STANDARD OPERATING PROCESS FOR

SIEMENS INDUSTRY, VADPE

Scope and activities

Activity scope includes for below functions.

1. Approx. volume for all the activities.
2. Security gate Inward entries
3. Receipts/GIR
4. Storage and binning.
5. Packing
6. Dispatches
7. Audit compliance
8. Daily Cycle Count
9. Supporting MHE
10. Daily/weekly/monthly reports and reviews.

1 Purpose and Scope

1.1 Purpose

This procedure details the process unloading, receipt, binning, Filter & Battery - Sub vendor & Site dispatches, Record keeping,

1.2 Scope

This procedure applies to:

- Material receiving at Filter & Battery stores.
- Dispatches

1.3 Parent Process

Stores & Warehouse Management

1.4 Abbreviations

Abbreviation Full Form

CSS - Cummins Sales & Services
 PI - Perpetual inventory
 FG - Finish Goods.
 CDOS - Common Dealer Operating System
 API - Annual Physical Inventory
 DN - Delivery Note (Picking & Packing Slip)
 NPDN - Non posting delivery note
 FAF - Frist Availability Fill Rate
 FSF - Frist Shipment Fill Rate

2 Applicability

2.1 Business Function

3 Process Map

1. Receiving
2. Binning
3. Picking.
4. Packing
5. Dispatch
6. Cycle count
7. Customer Return
8. Claim Analyzing

MIS- Daily/Weekly/Monthly Reports/Audits

- Daily Receipt Pending report.
- Daily Pending Grrsreport

- Daily shipment report.
- Daily work load report
- Daily report for perpetual count report
- Monthly Kaizen /Process improvement reports.
- Arrange monthly review meetings.
- Monthly performance report.

Stores/packing/dispatch activities.

4 Process Steps

• Receiving

4.1 Describe the high level process in the table below (Recommended):

Step	Step Detail	Responsibility
A	Security Gate Enter & Vehicle Reporting	Security Supervisor
	➤ Truck arrives at gate.	
	➤ Driver Reported at Security gate with all Invoices from suppliers.	
	➤ Security Mentions on Invoice reporting time & vehicle unloading number	
	➤ Security check through receipt sup. the all Invoice copies ASN Number	
	➤ Security & unloading sup. Verifying suppliers address & warehouse address.	
	➤ Stamping on all invoice our Inward stamp & making on all gate number on Invoice	
	➤ All invoice gate numbers write on inward register	
	➤ Reporting to the authorized person about inward vehicles.	
B	Unloading process	Receipt Supervisor
	➤ Authorized person preparing the plan about the unloading	
	➤ Pallets collections	
	➤ Checking all invoices	
	➤ Preparing unloading sheet	
	➤ Unloading the vehicles and cross check with the unloading sheet	
	➤ Stander Corrugated Boxes audit 100%	
	➤ All pallets move to the binning area with materials	
	➤ Give the acknowledgment(Extra) copies with sing of authorized person	
	➤ If any discrepancy found reporting to the Inbound authorize person	

4.2 Binning

Step	Step Detail	Responsibility
1	Preparing plan for binning	Binning Supervisor
2	All material come from unloading area move to the particular	

	locations of parts	
3	Preparing the binning sheet	
4	Binning the parts on their default locations	
5	After locating the part mark binning sheet on binning time and bin quantity	
6	if any discrepancy happen reporting to the inbound authorize person	

4.3 GRRS Process through oracle system

Step	Step Detail	Responsibility
1	All Invoice count as per LR. Invoice number & gate entry number	Receipt Supervisor
2	Create Grrs through ASN Number in Oracle system	
3	Write GRR number on Invoice hard Copies	
4	If any discrepancy happen reporting via email communications for example .(GRR P.O problem, amount difference)	
5	Reports of reference (Daily basis)	

4.5 Reporting

Step	Step Detail Daily/ Weekly/ Monthly Reporting	Responsibility
1	Line report cross check confirm Gate Entry Register-Daily	Receipt Supervisor
2	Performance Report-Monthly	
3	Vehicles TAT -Daily	
4	GRR pending -Daily	
5	If any Discrepancy -Daily	
6	GRR Delays Causal -Daily	
7	In transit -Weekly	

4.6 Record Keeping

Step	Step Detail_ Record Keeping	Responsibility
------	-----------------------------	----------------

1	After GRR all Invoice segregations & cross check all GRR process or not to be.	Receipt Supervisor
2	All Documents Filling as per GRR Number.	
3	After 1-2 months document dispatch for the filling return basis	

4. Picking-

Step	Step Detail Allocation Printing & Checking	Responsibility
1	Checked Allocations at the Scheduled time	DEO
2	Confirm all DN's Print	
3	Printing MRP Sticker	
4	Attached MRP Sticker as per received Dns (Stamp – EDO/BDO)	
5	Material picking as per dns from received locations	
6	Ready Dns hand over for picking	

Step	Step Detail Picking	Responsibility
1	Pick Material as per received dns locations	Picker
2	Before picking ensure location & read full Part Number	
3	Re-check pulled material with pick dns	
4	Picker to sign pick list after verification	
5	After Picking material move to the packing area	

5. Physical Packing

Step	Step Detail Packing	Responsibility
1	Take Break up for the printing Dns Data	Packing Supervisor
2	Given Priority EDO BDO DN's First	
3	Ensured all Material is pick correct or not	
4	Making Corrugated boxes plan how much it was material packed	
5	MRP Label sticker as per Items Number	
6	Packing Boxes as per DNs	
7	Write the packing details as items on document (DNs)	
8	Check Quality for packing	
9	How much Boxes are packed marked as per DNs and lot number	
10	After packing update dns in packing register & print the shipping label	
11	As per Dns stick shipping labels on boxes	
12	Packed boxes are stack on pallets & move to dispatch area for strapping	
13	Strapping the boxes as per DN's lot wise & divided transporter wise	

6. Dispatches

Step	Step Detail_ Invoicing in Oracle	Responsibility
1	All DNS collect from packing area & Battery Scanning Area	Supervisor
2	All DNS attached docket before transit	
3	All DNS transit in system & confirm if any back order items	
4	All DNS shorting transporter wise	
5	All DNS closed by their particular destinations	
6	Convey to the transporters about shipment	
7	Generating all shipping invoice	
8	Give all invoice to their particulars transporter with all documents	

Step	Step Detail Physical Loading process	Responsibility
1	Received invoice Sort transporter wise	Associate& Security guards
2	Hand over documents to security for preparing loading sheet	
3	Ensure boxes strapping before start loading	
4	Reported vehicle arrange on loading dock with safety stopper	
5	Before start loading check vehicle condition	
6	Before loading boxes cross check with VLS- DNs number /Box marking number /destinations / Dealer Name	
7	All material checked by the authorize loader and security guards	
8	As per plan load the material in vehicle	
9	After loading take sing on VLS Document from transporter / loader & security guards.	
10	Make entry outwards register	
11	after dispatch material crossed check loading sheet and gate pass book	
12	Making the entry to the outward register	
13	Hand over transport document -(DFT,EXTRA,EXTRA NOT FOR CENVAT) Original only send customer with transporter	
14	Keep Invoice Track in excel physical loading done or not	

Step	Step Detail_ Recorded Keeping	Responsibility
1	After Loading Received Document for shorting	Associate
2	Keep separate D.A.C.C Copies	
3	Keep Courier document separate	
4	Arrange serial wise & kept in poly bag	
5	After 2 Month sending for filling	

Step	Step Detail _ Courier	Responsibility
1	After Loading original document keep separate	Associate
2	Shorting Dealer & city wise	
3	Keep the document in envelop	
4	Attached courier docket & barcode number to envelop	

5	All courier envelop keep in box	
6	Courier person visit collect them	

07. Audit Compliance

Step	Step Detail Audit Compliance	Responsibility
1	Gate Entry Audit (System to Physical In warded Entry)	Security Officer & Supervisor
2	Physical Received Invoice to system Entry	Inventory- Supervisor
3	Physical Packing Details Audit	Receipt- Supervisor
4	System Generated Invoice Crosse check with packing slip	Dispatch -Supervisor
5	Material Transition Report Match with shipment Report	Inventory- Supervisor
6	Rtv Transition Crosse Check Physical dispatch or not	Inventory- Supervisor
7	Customer Return if any GRRS Cross check physical document	Inventory- Supervisor

08. Cycle Count

Daily Cycle count plan –

- A Class – 02 items
- B Class – 04 items
- C- Class -03 Items

Step	Step Detail _Inventory	Responsibility
A	Oracle process (daily process)	Inventory Supervisor
1	preparing plans for cycle count of material	
2	daily target 9 parts	
3	preparing the report of that particular 9 parts from system	
4	system quantity (particular parts)	
5	checking all reports in system of inventory	
B	physical cycle count process	
1	all parts to be cleanly check with system quantity	
2	segregate excess material from locations	
3	marking on counted parts	
C	Reports	
1	Cycle Count Report sent to CIL & Spear	
2	Reporting excess material	
3	Reporting short material	

9. Supporting MHE (Material Handling Equipment's)

Equipment's

Equipment's used in this process

- HPT
- Ladder
- Hand Pallets Truck
- Fork Lift
- Stacker
- Strapping Machine
- Sealing Machine

Training

Training conducted and assessed by Warehouse Manager

- Process Training – To Supervisors
- Material Handling – To Supervisors, Associates.
- MHE Handling – To MHE Operators.
- Safety - To Supervisor, Associates.
- 5 S - To Supervisor, Associates.

Metrics and Auditing

- Process Metrics Overview
- Process Audits

Warehouse Records

Record Description	Custodian	Retention Period	Type	Storage Location
Invoice Copy, LR, GRRs	Dispatch	NA	Paper	Warehouse
Gate Inward Register(Productive, Nonproductive, Customer Returns)	Security Officer	NA	Paper	Main Gate
Gate Outward register	Security Officer	NA	Paper	Main Gate
Visitor Register	Security Officer	NA	Paper	Main Gate
Warehouse Opening & Closing	Security Officer	NA	Paper	Main Gate
Attendance Register (Staff, Associate)	Security Officer	NA	Paper	Main Gate

10. Daily / Weekly / Monthly Reports & Reviews

Step	Step Detail _ Reports & Reviews	Frequency
1	MIS	Monthly
2	PPT	Monthly
3	5's Audit	Weekly

4	Attendance Report	Daily
5	LPH-QPH	Monthly
6	Process Audit	Weekly
7	Weekly Stock Count of Battery Parts	Weekly
8	Battery Aging Reports	Weekly
9	Dashboard	Daily
10	LSW	Daily
11	GRRS Pending	Daily
12	GRN Delay causal	Daily
13	Vehicle TAT	Daily
14	In transit	Weekly
15	GRRS-Performance Report	Monthly
16	Shipment Line Report	Daily
17	STU FTL REPORT	Daily
18	Open DN Aging	Daily
19	Shipment Vehicle TAT Report	Daily
20	CIL STU Warehouse Open Dn Status	Daily
21	Shipment- Performance Report	Monthly
22	Daily Packing Report	Daily
23	Packing -Performance Report	Monthly
24	Pending Road Permit Report	Daily
25	Loading Invoice Tracking Report	Daily
26	Cycle Count consolidated	Monthly
27	Near Miss Report	Weekly
28	Daily stock Report	Daily
29	Material Transaction Report	Daily
30	System Process Transaction Report	Daily
